

Virtual Exhibitors

The MORI Conference provides a virtual exhibition via the MORI website. Virtual Exhibitors will NOT have a physical booth space the day of conference. In addition to website presence, Virtual Exhibitors videos will be played in between speaker transitions, case studies, and breaks during the conference. Exhibitors are encouraged to send 2 attendees to provide onsite Q&A.

Video content will be previewed by conference organizers and once approved will be uploaded to the website and confirmation of video "air time" during conference.

Your video should include:

- Major functionality of system or service.
- Include your capabilities in patient/client demographic capture, prevention and treatment plans, referral management, social determinants of health capture, surveys and assessments, workforce management, scheduling and reporting.
- Identify your differentiation and/or innovation.
- Videos should be no longer than 3 minutes.

Please provide a link to your video to the conference organizers via info@techserv.io.
